

NOTICE OF POTENTIAL BREACH OF PROTECTED HEALTH INFORMATION

August 13, 2018

On June 14, 2018, it was discovered that certain staff members at Southwestern Pennsylvania Human Services, Inc. may have had their email accounts compromised. Since discovering the potential breach, our agency has strengthened our cyber security by implementing policies and procedures related to email passwords and encryption.

While we have no reason to believe anything contained in the potentially compromised emails has been viewed by a third party, some protected health information of clients of The CARE Center, Inc. may have been contained in the potentially compromised emails. If you were a client of The CARE Center, Inc. between December of 2015 and June of 2018, please contact (724) 489-9100 ext. 4205 to learn if your information was involved in the potential breach.

We are deeply sorry for this situation and apologize for any stress and worry it has caused.
