Centers of Excellence help ensure that people with opioid-related substance abuse are connected to treatment, and continue to receive follow-up care and support within their community.

Thinking about addiction a different way.

◆ A person suffering from addiction can directly contact a Team Member, or can enter a health care facility;

◆ The Team will then coordinate care and a treatment plan; and the person will receive all available supports, coordinated by the Team;

◆ A Team Member will follow the person’s progress and offer continued guidance and support.

If you or someone you care about needs help with an opioid addiction, The SPHS Centers of Excellence is available to help.

SPHS CARE Center
75 East Maiden Street, Washington, PA

SPHS Primary Care
2 Eastgate Avenue, Monessen, PA
